- 'Textinhalt:' text input field (highlighted with a red rectangle).
- 'auch stornierte Einträge' checkbox.
- 'Personengruppe:' dropdown menu with 'Alle Kontakte' selected.
- 'Drucken' button with a printer icon and 'F8' shortcut.
- 'Abbruch' button with a red 'X' icon.

## Result entries Switzerland

Since the introduction of the World Handicap System (WHS), the scoring records have been calculated by the golf associations. In Switzerland, the handicap history sheet from SwissGolf is loaded into the local PC CADDIE, so an evaluation can also be made here.

This is not possible in most countries, as the associations do not make the handicap history sheets available for loading into PC CADDIE.

The entries in the handicap history sheet can be printed with the function

**Handicaps/Print.../Handicap entries** function in list form. You can use this to list the handicap changes in a specific period and also make a selection as to whether you only want tournament results or all changes:

If you enter a text content, e.g. „EDS“, you will only receive a list of HCP changes due to EDS rounds. Or you can enter „Club champion“ as text content and the dates of the club championship, then you will receive a list with all changes to the club championship (you will then have the new handicaps on a single list if it is a multi-round tournament).
