# Projects

#### Create a new project

We consider the example of handling complaints to create a new project. Complaints are known to be the best way to improvement, but only if they are taken seriously and not forgotten. So we open a project, so that the individual complaints can be filed accordingly and immediately stored for the right person.

To do this, click in the CRM window of the personal mask (e.g., of the golf club) or directly on the button **New** from the bottom of the event window below **New**, select the category *Project* and conform with OK:

Describe it as a Project with complaints using the subject field, and address it, for example, to the

club manager. The status can be set to open, since what is important are the attachments, and not the project itself. Leave the box *Subsequently open the project* without the check-mark if you want to edit the project even further; otherwise you can remove it and confirm with OK.

New project				×
			 	✓ <u>O</u> K F12

- 1. Projects are filed with folders
- 2. Single entries and entries assigned to projects are listed without marking. P.S. If the sub-entries of a project are set to done, only the project will remain in the overview.
- 3. Notes of invoices are marked with a small letters, those of serial letters with a pinned note, etc.

#### Create a project from a tournament

A good tournament preparation and organization is half the way to the goal! Once a tournament with all the data has been created in PC CADDIE, you can also save all the organizational tasks, documents and correspondence associated with it, bundled in a project. This means that you always have all the information at a glance - always visible, easily accessible, chronologically planed and clearly arranged.

Click on the button **Project** in the tournament data to make a project from a tournament.

Name, Date, Course     Image: Course       Code     18001       Name     Opening tournament

The category "PROJC" is the newly created competition project. Here you can now save, plan and view all other organizational information or tasks.

#### Open tournament from the project

The tournament project always stays connected to the tournament. This means that even if you edit it, for example from the sponsor data, and want to switch briefly to the tournament, you can go directly to the tournament data with the tournament info window via the **Event** button.

In contrast to the project linked to a tournament, these projects are automatically created in category *Project: course.* You can now edit the project.

# Create a project from a blocking/filter

If the tee time bookings are entered in the timetable for groups as a block or filter, they can also be linked to a project the same way as the tournaments.

Time booking: 9 Loch 🗙							
<u>D</u> ate <u>T</u> ime D <u>u</u> ration	28.04.18         Saturday           14:20 <u>R</u> ounds           10 min         Maximum	<ul><li>✓ <u>B</u>ook</li><li>X Delete</li></ul>
