Update PC CADDIE

Updating PC CADDIE is important for a functioning system. Check regularly whether a new update can be downloaded.

Via **End/Update PC CADDIE** the following message window opens, which you can close with please close with **OK** to confirm:

In newer versions, start the update via **System/PC CADDIE update** or via the green "i" at the top right and then **Update PC CADDIE**

Update PC CADDIE	×
Important Notice	
Please understand that this note is necessary for clarification, although the content should be self-evident:	X <u>C</u> ancel
The downloading or installation of updates is only possible if you have a valid service-contract or within the free six months guarantee-period after purchase.	
For downloading or installing an update without a valid service-contract, an annual charge of 10 % of the original price of your PC-Caddie installation applies, according to the valid pricelist.	
Please also note that the license conditions apply for the installation of an update; you can find these terms in your documents, or request a new copy from put support service before downloading. In particular, claims for damages resulting from any malfunction of the update or during the update process are excluded. Ensure you have a suitable and up-to-date backup!	
By downloading or installing the update you agree that you are fully satisfied with these terms and are entitled to start this process.	
Otherwise press [Cancel]	

Follow the next windows and confirm this with *Continue.* Normally it is not necessary to make any changes to the preset selection:

late PC CADDIE	>
Select how to load the update:	Continue
Load update from internet (HTTP) Load update from a data medium Request license information Import license file	X <u>C</u> ancel
Show or print update information	
Enforce restart of PC CADDIE on all other stations	
Repeat download of update	
<u>Reactivate previous PC CADDIE version</u>	
opy update files to a data medium	

If the system is already up to date, you will see the following window:

No new update	<
There is no new update available.	
Try again later to load a new update.	
Load update nevertheless	
× <u>C</u> ancel	

You can cancel with *Cancel* to exit the window.

However, if a more recent version is available, PC CADDIE will then automatically start loading an update:

Please wait
Load information from server
