## **Timetable colour settings**

Under *Timetable/Timetable colour settings* PC CADDIE offers you the option of configuring the colour settings in the timetable according to your wishes:

Here you select which colour settings are to be used. It is possible to have the same colour setting everywhere, or to make and store separate settings for the terminal and timetable track.

There is also the option to generate several individual colour settings.

The following special parameters must be used here:

- **TIME\_COLSEL** enables different colour settings in the timetable

- TIME\_COLUSER: 1 (or 2 or 3) uses the templates "User-defined 1 to 3"

You can then store the desired colour scheme under the menu item Colour settings:

Break	Farbe: 65280	~	🖌 ок
Blocking	Farbe: 255		
Filter	Farbe: 8453888		
Booking - available positions	Farbe: 16777088		X <u>C</u> ancel
Booking - occupied	Farbe: 8421376		
Booking - posted	Farbe: 4210688		
Booking - overdue member	Farbe: 49601		
Booking - overdue guest	Farbe: 193		
Tr. Class (Magenta) - empty	Farbe: 16744703		
Tr. Class (Magenta) - filled	Farbe: 16711935		
Tr. Class (Magenta) - full	Farbe: 8388736		
Tr. Class (Bronze) - empty	Farbe: 11198431		
Tr. Class (Bronze) - filled	Farbe: 32896		
Tr. Class (Bronze) - full	Farbe: 4227200		
Tr. Class (Silver) - empty	Farbe: 14671839		
Tr. Class (Silver) - filled	Farbe: 12632256		
Tr. Class (Silver) - full	Farbe: 8421504		
Tr. Class (Gold) - empty			
Tr. Class (Gold) - filled			
Tr. Class (Gold) - full	Farbe: 49601		
Tr. Class (Purple) - empty	Farbe: 8421631		
Tr. Class (Purple) - filled	Farbe: 193		
Tr. Class (Purple) - full	Farbe: 128	¥	

Use the cursor to activate the function you want to change and change the colour with the *Change colour button* (F7).

Use discrete colours with a good mutual contrast. The PC CADDIE basic setting is usually already very practical.
