

Order list

The order list is an information list that gives you a quick overview of which items are earmarked for ordering. You can find this function under **Articles/Print.../Order list**. In contrast to the article list, the order list contains the **minimum** is important in the order list.

The default settings have been set appropriately, but can of course be customised according to your requirements. For further settings, please read the menu item [Article list](#).

All items that have a minimum stock level defined by you **minimum stock level** are shown in the list and can be reordered.

An example could look like this:

In the column **Best** column you will see the order proposal from PC CADDIE. As no minimum stock is entered for the Golfino item, no order is suggested. The minimum quantity 1 (Min. column) is entered for the Bermuda shorts. The blue chequered Bermuda shorts were sold into the negative stock, so the order quantity is 2 to compensate for the negative stock.
