

Yearly course statistic

Please keep in mind that you have several courses, for example, a rating for 18 holes and another one for holes 1-9 or holes 10-18. If you have to download the courses again from the DGV intranet, this means there are new courses created (for example, for a new rating). Each course's records will be evaluated separately.

You will find your Yearly Course Statistic under **Competitions/Multiple Tournaments, Golf Weeks/Print.../Yearly Course Statistic**. You can make three main settings:

1. Choose under **Selected Competitions** the relevant competitions for the calculation. In the first tab, click on the **Select competitions** button so that the following window opens:

2. Define the persons group you want to be consider under the tab **Player**. The handicaps can be set as desired, the default value is preset according to the association rules.
3. More adjustments can be done under the **Analysis** tab:

- You have two options „Gross difference, absolute“ and „Gross difference, relative to par“.
- As you wish you can select **Numbers**, **Graphic** and **Players of clubs**. If all three marks are set, you will also get the printout of special results, such as Albatros, Eagle or Hole-in-One.
- With **Separate individual courses** you will get an evaluation per course (18 holes, 9 holes 1-9 and 9 holes 10-18). Delete the marks when you want an overview over all courses.
- You can get a more detailed evaluation by checking the **and separate tees** box.
- With **Use odd-numbered scoring for first 9 holes and even-numbered scoring for 2nd 9 holes** the statistic will be printed separately for the first 9 holes and the second 9 holes.

By clicking on **Print** (F8), you will get the information about participants, hole results, evaluation of the holes according to the absolute difficulty, special results, Clubs etc.
